## **WORDFINDER HR EUROPE – ON-SITE SELECTION AND RECRUITING OF PERSONNEL**

### **BRIEFLY**

Company success always depends on the selection and recruiting of suitable personnel. The entry into a new local market like the EU, increases the demand for competent staff significantly. As your bridgehead within the scope of a market entry or an expansion of your business, we recruit for you the appropriate personnel on site. With domestic specialized staff, we thus ensure acceptance and market access.

### **INCLUDED ARE**

Basis for the search is a jointly defined detailed applicant profile. The personnel search takes place depending on the budget and type of position through newspaper ads, staffing agencies or Wordfinder selected recruiters. A prior selection increases the effectiveness of the actual selection process. For a safeguarding of legal issues, we are additionally working with a local legal council, who will draft for you all documentation and contracts legally compliant.

### **YOUR BENEFITS**
